Easy Way to Get Rid of Itching

Don't worry any more about that itching skin-itch. Just get a jar of resinol ointment and a cake of resinol soap at any drug store.

With the resinol soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened.

Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage.

This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

Choosing Your Shampoo Soap

If you select a soap that contains soothing, healing properties like the resinol balsam, or resinol soap, you are not likely to have trouble with dandruff, loss of hair or itching scalp.

Ideal for the youngsters' heads.
